New Consolidated APR/CAPER -January 1, 2024, OHH resumes scoring and tiering

The HUD Office of HIV/AIDS Housing (OHH) has published a [memo](#) to notify HOPWA grantees that the leniency period granted in the first year using the new HOPWA Consolidated APR/CAPER will end and the structured tiered system will resume on January 1, 2024. The tier status will again be reported on the performance profiles and used in annual risk analysis. From this point, OHH anticipates only minor updates to the reporting format that will provide further clarity but will not impact data collection set up or reporting. OHH expects grantees to collect and report all required data for the consolidated APR/CAPER. The Consolidated APR/CAPER training can be found on the HUD Exchange [landing page](#).

Background: Previously, on October 12, 2022, OHH issued a [letter](#) to HOPWA grantees as notification that leniency will be granted in the first year using the new HOPWA Consolidated APR/CAPER. OHH did not formally tier or score reports in calendar year 2023. HUD expected all grantees to continue reporting financial, output and outcome data about the reporting year; however, grantees experiencing gaps in data due to the transition to this new performance reporting form were not penalized in the first year as new systems are established.

Housing is an effective structural intervention in ending the HIV epidemic in the United States. Each year, HOPWA ensures housing stability for more than 100,000 American households that are low-income and living with HIV.
