

Fresno County Lead Hazard Reduction Grant Program

Department of Public Health
www.fcdph.org

The Fresno County Lead Hazard Reduction Grant Program receives funding from the Department of Housing and Urban Development's Office of Lead Hazard Control and Healthy Homes.

Lead Abatement Stages

Containment Set-up

Containment is verified prior to lead hazard remediation work

NTP Issued after containment is verified

Wet-scraping of deteriorated paint chips

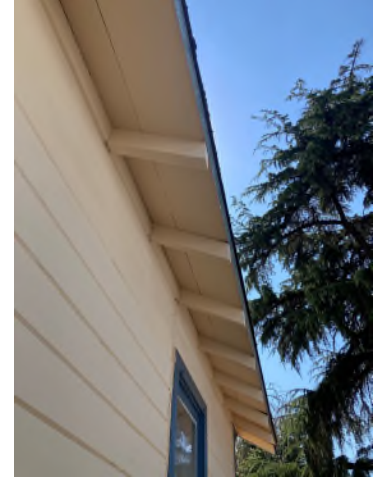

Post-scraping Inspection

Inspections are done to
ensure all loose paint chips
are scraped

Priming Inspection

- ◆ Inspections are done to ensure all components identified with lead hazards are primed thoroughly before painting

Paint Quality Inspection

Inspections are done to ensure that the paint finish meets guidelines

All remediation work is compared to the SOW to ensure all components were remediated

Clearance

- ◆ Clearance samples are collected when it passes the visual
